SIR,

I have the honor to state that with a view to overcome the difficulty experienced for good water in the Midigesi village of the Madhugiri Taluk, the Village Panchayet put down a bore-hole with successful results. The Panchayet are now anxious to instal an engine and a pump for the distribution of water. The approximate capital cost of the same is estimated at Rs. 2,024/- as ascertained from the Director of Industries and Commerce. The District Board have agreed to contribute one-third of the cost, and the Panchayet request that the remaining two-thirds, Viz. Rs. 1,350/- be contributed by Government in view of the fact that the First Member of Council kindly promised to provide them with the necessary plant free of cost by Government on their representation to him during the Birthday Session of the Representative Assembly. They now urge that effect may be given to the promise then held out to them. Vide copy of the resolution of the Panchayet herein enclosed and I solicit orders of Government in the matter

(2) I may add here that sometime before the Birthday Representative Assembly Session, I visited the village and came to the settlement that the Village Panchayet should pay one third, the District Board one-third and that I should pay one third out of the rural re-construction grant. I placed the matter before the

the District Board and got the requisite grant from them. But the Representative Assembly Member who is a resident of the village seems to have informed the Panchayet that the Government had agreed to pay their quota as well and hence the Panchayet resolution.

(3) In this connection, it may also be stated that the Panchayet have agreed to levy a special water tax at the rate of 15 annas per head per year to meet the running costs of the plant estimated at Rs. 3/- per day, and I have addressed the Revenue Commissioner separately to obtain sanction of Government to the levy of this optional tax under Section 37 of the Village Panchayet Regulation.

have the honor to be,

sir,

Your most obedient servant,

Deputy Commissioner,
Tumkur District.

SIR,

Borewell at Midigesi

In inviting your kind reference to the letter No. C.819/29-30 dated the 30th August 1930 from the Deputy Commissioner, Tumkur District, requesting the contribution from Government of two-thirds of the cost, viz., Rs 1,350/-, of erecting a pumping installation on the borewell put down by this Department at Midigesi Village in the Madhugiri Taluk, I have the honor to state that the borewell was completed in March 1930 and the water available in the borewell has not been of use to the Villagers in the absence of a pumping installation. I may state that a borewell was put down at the village as the Deputy Commissioner urged that the Villagers of Midigesi were suffering from great scarcity of drinking water. I therefore request you to kindly obtain early orders of Government on the letter of the Deputy Commissioner, Tumkur District, dated the 30th August 1930.

I have the honor to be,
